NAINITAL, Uttarakhand

## Summary

I am a dedicated web developer with a Bachelor of Computer Science degree, possessing a strong foundation in JavaScript. My proficiency lies in the development of dynamic and responsive web applications, and I apply my extensive experience to ensure the delivery of superior user experiences

---

## Education

### Bachelor of Computer Science

Graphic Era Hill University • Dehradun, Uttarakhand

06/2024

### Intermediate

Evergreen Senior Secondary School • Haldwani, Uttarakhand

07/2021

### High School

Evergreen Senior Secondary School • Haldwani, Uttarakhand

05/2019

---

## PROJECTS

### Flappy bird Game

Developed a Flappy Bird game using HTML5, CSS, and Javascript, implementing physics-based mechanics, collision detection, and score tracking. **App link :** [Click here](#)

### DayPlan

A web application for managing tasks has been developed using the React.js framework and the Bootstrap library. This application encompasses all the necessary functionalities for adding and removing tasks. **App link :** [Click here](#)

### Music player

I successfully developed a web-based music player application, similar to Spotify, which incorporates play bar and seek bar functionalities. This project was implemented using HTML, CSS, and JavaScript to achieve the desired features and user experience. **App link :** [Click here](#)

### Hand Gesture Recognition

I have successfully developed a machine learning model that accurately predicts hand gestures with a precision exceeding 90%. The technology stack utilized includes Python, OpenCV, and MediaPipe. **Github :** [Click here](#)
